# Intummadee Maliyam

## ABOUT ME

Hello, my name is Intummadee Maliyam. I am a graduate of Information Technology with a passion for problem-solving, teamwork, and continuous learning. I am always eager to learn new tools and technologies. I am capable of adapting to new situations and am always ready to learn new things.

## PROJECT

### Mobile-Application-Motorcycle 2024

This project aims to develop a complaint system for motorcycle taxi services within KMITL. Users can report various issues they encounter, and additionally, they can search for motorcycle through Google Maps.

- React Native , Javascript , Mobile , Firebase

### CardCheck 2024

This project is undertaken to document the names of individuals holding national ID cards and to verify the entry of students into classrooms during examinations.

- Flask, Html , Bootstrap , CSS , Computer Vision, Python

### KNINEZ SHOP 2023

This project demonstrates a simulated store system that utilizes the Microservice architecture. The following services are developed in this project: Inventory Management, Employee Management, Warehouse Communication, Online Ordering, Customer Data Management, Receipt Management, Login/Registration.

- Java , Microservice , CQRS/SAGA , Repository pattern , MongoDB

### Way to late 2023

The Way To(o) Late project is a 2D game developed using the Java language. The game simulates a route within KMITL. Players take on the role of students who must travel to their respective faculties on time.

- Java , OOP , 2D Game , Tiled

### Beauty House 2022

This web application provides convenience for scheduling appointments to visit a beauty clinic. Customers can check their booking history, choose the desired physician for services, and the website owner can efficiently manage lists related to both customers and physicians.

- Node.js , Javascript , Vue.js , Bulma , Express.js , MySQL

### Ohmmm Amulet 2022

The project involves the development of a website dedicated to buying and selling products, particularly amulets. Customers have the option to browse the products, choose their preferred color, reserve items, add them to the cart, and proceed with the purchase

- Html, Css , Javascript , Bootstrap , PHP
